## Bricks for Bucks

Help rebuild our community! Donate \$50\* to put your name on a brick that will build the archway to the Altoona Recreational Facility.

This much needed project will be located in Logan Township. We are aiming for a family based facility that will include a 28,000 square foot skatepark, playground (similar to Legion Park), walking track, pavilions, lights and restrooms. The plans are set in motion and we have city backing to help, but what we really need are donations, both public and private. We cannot obtain our goal without your support. This will give our youth and their families what they need: a place to be expressive, creative, meet new people, maintain existing relationships and build social skills, as well as feed the need for exercise. Your donation will make a difference.

**Your donation is tax deductible under the CBRC 501(c)(3) status.**
